BOARD OF TRADE.

A meeting of the Board of Trade was called for Monday afternoon last in Secretary Cowell's office for the purpose of receiving names of new members and to start the ball rolling with regard to a progressive campaign.

On motion the rule governing the election of members was suspended and the following names added to the list in good standing:

Wm. McKenzie, J. W. Robinson, R. L. Gaetz, G. W. Smith, D. M. Sanson, J. Carlyle Moore, E. P. Cronquist, Gordon Armstrong, S. McKee, D. S. Long, Wm. Botterill, J. F. Gaetz, J. I. Geissinger, R. C. Brumpton, T. B. Fisher, Jos. Slade, H. G. Stone, W. Hewson, H. Reinhold, J. B. Gaetz, Wm. Bannerman, Jas. Farris, H. A. Mitchell, E. L. Cope, J. Niven, T. F. Ellis, W. L. Quimette, W. E. Payne, J. B. Crawford, F. H. Tellman, J. A. Carswell, M. J. Manning, C. Hamilton, E. Michener, W. P. Helliwell, F. W. Galbraith, G. W. Wilson, Jas. Collison, H. B. Hill, H. H. Drake, W. B. Findlay, C. R. McCutcheon, E. A. Molson, S. E. McKee, W. M. Jarvis, R. B. Welliver, T. A. Gaetz, J. T. Wallace, K. M. Byers, J. E. Bower, Hugh Clarke, G. H. Bawtinheimer, W. Hoskins, G. H. Best, R. Parsons, G. W. Ball, R. H. Brown, S. N. Carscadden, Jas. Harkness, J. J. Gaetz, A. Munro, F. Michener, N. Murphy, W. E. Trump, A. T. Stephenson, T. B. Pidgeon, D. G. Horn, C. E. Hall, J. A. Menzies, H. Wallace, L. M. Gaetz, J. R. Cowell.

It was decided that the President make a formal request to the council for the use of the council chamber in the Fire Hall for meetings of the Board and that chairs be provided for seating accommodation.

That the President be authorized to call the next meeting of the Board of Trade as soon as convenient, probably next Tuesday evening, when the election of officers will take place, appointment of committees, etc.

Any citizen who wishes to join the Board can do so by leaving word at either newspaper office or with the secretary, J. R. Cowell, and he will be accepted as a member and be allowed the same privileges as other members at the first meeting of the Board.

Fire Fighters' Ball a Grand Success.

The New Fire Hall of Red Deer was opened on Thursday evening last, by the members of the Fire Department giving a splendid dance and supper which from start to finish was the most successful affair of the kind ever held in town. The ground floor was devoted to dancing and was beautifully decorated with flags and bunting in red, white and blue, the ceiling being made to represent four Union Jacks as near as possible. Four shields emblematic of the British Isles and Canada decorated the walls, these works of art being painted by G. Rothnie and E. Hart. As we entered the door a large streamer bearing the motto "The Fire Boy's Welcome" with two speaking trumpets and a torch surmounted by the letters R.D.F.D., met our gaze. This was erected and donated by H. G. Stone, such a splendid work of art. The upper floor was devoted to refreshments under the supervision of the ladies committee, consisting of Mrs. Meeres, Mrs.

Rothnie, Mrs. Geo. Mrs. Martin, Mrs. McDougal, Mrs. Stone and the Misses Bawtinheimer. A large table extended along one side of the building which was loaded with choice eatables provided by the brigade. Although the boys have a good sized ball room it was taxed to its utmost to accommodate the large number of couples who tripped the light fantastic on the beautifully waxed floor.

Music was provided by Prof. W. B. McQueen and W. Morris with violin and piano, which was up to the usual first class style.

There were upwards of 150 persons present and all seemed to enjoy themselves to the utmost. One of the pleasant features of the evening was the Hungarian toe step dance performed by Miss Paterson. We understand this fair dancer has carried off the highest honors in Glasgow, Scotland, for step dancing, and after seeing her perform we are not surprised at it.

The programme consisted of 30 dances being owing to the lateness of the hour it was thought advisable to cut out a few at the end, when everybody went home tired but happy. The council adjourned as soon as possible and gave support to the fire laddies by their presence. Our worthy Mayor looking particularly attractive in the cap of the Chief which he donned for a few minutes during the evening. It was a pleasant feature of the evening to see the pride taken in our excellent brigade by the Council and the citizens at large, and we feel assured that chief Meeres, secretary treasurer Moore and the different committees who had charge of the arrangements feel gratified at the interest taken in their welfare, and they hope to make their annual ball the event every year in the future.

Curlers' Banquet.

The Red Deer Curling Club wound up the season's play with a banquet at the Arlington hotel on Friday evening last. There was a large and enthusiastic gathering of members of the club and friends. Among those present we noticed: President, A. T. Stephenson, at his left hand, Messrs. Ward, Captain Cottingham, Hugh Clarke, W. Wright, N. Mullin, P. Pidgeon, G. Rothnie, Rev. Fortune, Jos. Slade, J. Helliwell, W. B. Findlay, M. Hanna, H. S. Campbell, H. H. Humber, G. H. Bawtinheimer, G. Beatty, W. Postill, G. T. Lundy, T. P. Ellis, W. L. Quimette, F. W. Galbraith, W. Cassels, G. W. Greene, W. P. Helliwell, J. A. Carswell, E. Martin, N. Murphy, T. A. Gaetz, J. Wallace, H. Wallace, R. C. Brumpton, R. V. Welliver, E. P. Alfred, S. N. Carscadden, W. E. Payne, W. Hoskins, C. Quimette, E. A. Molson, W. L. Coates, D. G. Horn, J. Harkness, H. H. Drake, R. McCutcheon, W. Wilson.

After all had partaken of the good things provided, the toast of "The King" by the chairman, A. T. Stephenson, opened proceedings, and was responded to by the company singing the national anthem.

The President made a few remarks stating this was the first annual banquet of the Curling Club and stated that it afforded him considerable pleasure to see such a splendid gathering of curlers.

Secretary Welliver read regrets from Messrs. Hope, J. R. Miquelon and A. Scott, afterwards

giving a statement of the club's affairs for the past season. H. H. Drake had the best average for the past season. After all expenses are paid the club will have a surplus of \$80 on hand. The president then presented to H. H. Drake the Scott Cup, and medals to each of his rink, "for he's a jolly good fellow." Mr. Drake responded. The Pidgeon & Wallace prize for points, was presented to Jos. Slade and Finley second. "Alberta Branch of the Royal Caledonian Club" was responded to by W. Wilson, of Innisfail. The cup for single competition was presented to E. C. Brumpton, and four medals for members of his rink.

The club's prize for points was presented to E. A. Molson. The Stephenson cup and medals presented to Mr. Quimette and his rink, and Mr. Harkness and his rink were presented with their trophies, having come out ahead of the other rinks at the end of the season. Mr. Quimette won the district medal for points and the first competition was won by W. B. Finley with P. Pidgeon second the prizes being distributed accordingly. Songs were rendered during the evening by Messrs. Cassels, Rothnie, Ellis and Brumpton, and the usual toasts were given and responded to by the members and visiting curlers.

Perhaps the most interesting feature of the evening was when the Vice President W. L. Quimette stepped forward and presented R. B. Welliver, the popular secretary of the Club with a handsome grandfather's clock as a small token of regard for his untiring efforts on behalf of the club the past season. Mr. Welliver made a suitable reply and the members sang "for he's a jolly good fellow."

Rev. Mr. Fortune in responding to "The Game of Curling" made a strong appeal for clean, manly, sport. He knew of no cleaner game than curling, even bad language was seldom heard. As chaplain of the Alberta branch of the Royal Caledonian Club he desired to say that he would make a special address to curlers on Sunday evening next 21st inst. in the Presbyterian church.

Geo. Lundin of Innisfail in responding to "Visiting Curlers" drew attention to the old iron stones owned by the Red Deer Club. He had curled with them in Winnipeg and had helped to load them on carts for Edmonton. He had played with them in Edmonton and other places. They were the first stones in Alberta and few clubs possessed such a treasure.

Capt. Cottingham in his remarks thought we should place those old iron rocks in Dr. George's museum.

W. B. McQueen and W. Morris entertained the guests with choice musical selections during the evening.

Proceedings were brought to a close about midnight with the national anthem.

BUILDING NOTES.
Mr. McCaskey is building a nice storey and a half residence on Mann street east of W. E. Payne's residence. Mr. Armstrong starts work on it to-day.

Councillor Botterill is erecting a handsome colonial residence on Ross avenue, east, the foundation, Mr. Armstrong informs us, would have been completed to-day but for the cold weather.

Nelson Murphy's new block on Ross avenue is being rushed with all speed and will be ready for the bricklayers in a day or two.

Burden's Failure

By CLAY MARSDEN

Copyright, 1904, by Ruby Douglas

"Come right in," said the girl at the head of the stairs. "I have been expecting you for an hour."

"It is pleasant to be expected," laughed Burden.

"That will do," said the girl sharply. "No impertinence or I shall report you to the janitor."

Burden could not quite see what the janitor had to do with the matter, but he lifted the soft slouch hat that was a part of his failing togethery and started to pass on up the stairs to his apartment.

"Come in here," called the girl imperiously. "You don't suppose that I came downstairs to meet you, do you?"

She led the way through an open door, affording a vista of chaos, to the parlor of the apartment. "These pictures had better be hung first," she commanded. "I will tell you where."

Burden gasped. For the first time he realized what was expected of him. She had mistaken him for a day worker for whom she had probably sent to aid her in straightening out her new home. The fact that he was in an old suit and had hung the nearest bolt in the lobby because he had forgotten his keys accounted for the error. It had been her bell he had rung.

She was expecting a man to help, and she had supposed that he was the one. She had not been flitting after all. Somehow Burden was rather glad of it. There would not be very much doing in the street that afternoon, so he slipped off his coat and went to work. It was evident that the little woman intended to get the full worth of her money out of him, for she kept him busy, and under her skillful direction the fat soon assumed an appearance of orderliness he had not supposed possible in so short a time.

She explained that her mother would arrive the next morning and that she

was anxious to have things all in readiness for her. On that plea she kept him working until 4 o'clock, but she was generous when she paid him off. Burden waited on the landing until she closed the door, then he ran upstairs to his own rooms and tumbled into the tub. It had been hard work and hot, and he was glad of the chance to clean up. He had risen at four for a fishing trip and had made a long day, but he thought he would dress again and slip over to the club for a chat and a bite.

At the foot of the first flight he came face to face with the girl. She recognized him in spite of the change that evening clothes made and gave a little cry.

"Then you were not the man the janitor promised to send up?" she said.

Burden lifted his hat. "I admit it," he began. "When I saw the mistake you had made and remembered that I had seen Phil, the chore man, disgustingly intoxicated on my way in, I let you persist in your mistake that I might be of assistance."

"And you let me pay you money," she reproached.

"If you think I didn't earn it," he smiled, "I'll give it back."

"But you didn't," she answered, "and I am sure you did."

"You are only five," he explained. "You don't have the other one? I guess that you must be as tired and as hungry as I am. You did your full share of the work, so won't you come and share the reward? I know that it is unconventional, but it will be such fun."

The girl looked into his eyes. What she saw there must have satisfied her, for she turned to descend the stairs with him.

"My name is Burden," he announced when they reached the street. "Nathaniel Burden, commonly known as Nat."

"I am Lois Trevor," she retorted. "I am glad to meet Mr. Burden."

Burden tucked her arm through his and led the way to the street car. It was only a short ride, and Lois gave a little gasp when she saw the restaurant.

"Did not realize how hungry I was," said Burden. "I wonder if I would serve an unscrupulous woman at this time of night."

Burden glanced at the clock in the window. It was only half past eight, but it seemed later.

"We won't worry about such things," he suggested. "Just think about what is best to eat."

Over the tablecloth he had ordered. She grew more communicative. She had come to the city to study medicine, he learned. There were only her mother and herself left of a large family, and they wanted to be together. There was something in Burden's manner that inspired confidence, and she

most without realizing it, she was chatting with an old friend.

The next afternoon he called to pay his respects to Mrs. Trevor, and before long the two women had come to regard Burden almost as one of the family. He took them to concerts and the theater and formed the habit of dropping in for a chat in the evenings when he was not going out.

"You read a report feverishly, but when Burden came home late that night and wearily began to ascend the steps she was at the head of the flight to welcome him, calm-eyed and quiet.

"Mother wants you to come in and have some coffee," she pleaded. "We saw the papers and are so sorry."

"I'll come gladly," he said, and as he drew a face lighted up. "I shall be glad to forget business for the moment and just sit waiting here like the first time my net is as unexpected as it is pleasant."

"We could not sleep," she explained, "because they will come back to us to know that all was well with you if not with the business."

"You didn't suppose I was going to show myself in the true manner of fashion, did you?" he laughed. Lois shook her head.

"It wasn't exactly that," she explained, "because they will come back to us so hard if you had a chance to rest a little before you went to your rooms."

He followed her into the tiny dining room, where a dainty cold lunch was spread.

"Cast your restaurant meals on the water and they will come back to us in shape of real home stuff," he laughed.

"I hope this lunch will do you as much good as the other supper did," said Lois tenderly.

"More," he protested. "There is only one thing I should like better."

"A meal in our own home," she explained. "Is there hope for me, Lois?"

The girl nodded her head.

"You are so handy about the house," she explained to cover her confusion.

"That's a good recommendation," he laughed. "If the firm really does fall I think I shall live out by the day."

"It," she echoed.

"Just that," he confirmed. "It was a trick to throw the market. We are sold enough by the time the market turned rumour into what purported to be a statement of facts. You see, you will not have to carry a beggar after all."

"I don't care what you are, Nat," she said tenderly, "so that you are you."

ONTARIO 50 YEARS AGO

RECOLLECTIONS OF WORK IN COUNTRY BY MR. CHARLTON.

Setting Up a New Home Half a Century Ago—A Pioneer Farmer's Work on a Pioneer Farm.

Self-Blinders Then—Crated Three Acres a Day—The Northern Clearings—Reciprocity in Work.

I was born near Caledonia, New York, in 1829, writes Mr. John Charlton in The Globe. My parents were of Scotch and Northumberland stock, went to Canada West, now Ontario, with my father, April, 1849, when I was twenty years old. With him were my three brothers and five sisters.

When my little brothers and myself started from the river of the father at Buffalo and struck out alone we anticipated a tedious journey. We had only a horse and a buggy, and a lumber wagon and a buggy. We crossed the Niagara on the ferry-boat. The crossing was made by a small boat, and the Canadian officer of customs at Fort Erie, and I had heard many stories of the "honest" officers of the frontier. In my land I had a barrel of sugar, a quantity of tea and some other goods, and I was well supplied with provisions. I might get along with the Major, he was very courteous and kind, however, and he was well supplied with provisions. I might get along with the Major, he was very courteous and kind, however, and he was well supplied with provisions.

TUESDAY, APRIL 16th, 1907.

A. E. Watts, of Wabburg, B. C., a prominent lumber dealer of that province was interviewed with regard to his recent visit to Ottawa. He says the capital is a disgraceful place for intrigue and gossip and no one's reputation is safe. The continued scandals revealed during the past two sessions, the sickening feeling about the private and public conduct of some of the ministers and prominent members is leading to a serious revolution against the Laurier Government says Mr. Watts. Sir Wilfrid's star is descending whilst Mr. Borden's is in the ascendant. The whole situation is one of suspicion and uncertainty and Mr. Watts positively states that the Liberals are losing ground at Ottawa.

In speaking of John T. Moore's absence from the temperance convention the Advocate says: "If the local member had attended the convention, we all know that the News and that class of captions critics would at once have accused him of 'buttering' where he had no business for political effect." The Advocate then goes on to say: "Mr. Moore was quite right, in his position, to let the delegated temperance and moral reform workers handle their own affairs and formulate their plans without suggestion or influence from party channels." Now that sounds very nice indeed, but the meeting at night was a public meeting, and was crowded with an interested public. Everybody was invited. Mr. Moore is a public man, he took a public stand on this question on the floor of the House and his friends had a right to expect his support when a provincial meeting was held in his own town, almost under his very nose. Did we accuse G. W. Smith of "buttering" as the Advocate calls it? Mr. Smith was one of the most active workers, and chairman of the meeting at night and stands as high in his party as Mr. Moore. We have no fault to find with his action. The Advocate's remarks we consider illogical.

We notice by the Advocate Mr. Moore is leaving for the east to recuperate after his arduous duties in the legislature. We are almost afraid to comment on this for fear of "buttering" in again. But Mr. Moore returned from Ontario one day before the legislature met and now just four weeks after the legislature is prorogued he leaves for the east again. He will be back during the summer sometime we are informed. If this sort of thing suits the people who elected Mr. Moore we, perhaps, should find no fault, but the people at large have their rights and while we may be misunderstood by some we wish to express our opinion by stating that Mr. Moore's lengthy sojourn in the east is detrimental to the interests of Red Deer and this provincial constituency which he represents.

Council Meeting.

The regular meeting of the town Council was held on Thursday evening last.

Members all present. A heavy bunch of communications were disposed of.

Mr. Jamieson wrote stating the C. P. R. wanted two lines of rails at Munson street crossing. This was contrary to the agreement with the council last year, when only one line of rails was to be crossed. Referred to Public Works committee for consideration.

From A. B. Purdy asking that he be allowed to sink a cesspool for draining purposes on lots in connection with his dwelling referred to Board of Health.

From A. W. G. Allen asking for use of fire hall for meeting purposes of the exhibition association.

From J. Quinane stating that in the event of there being any change in the scavenger work, he was prepared to handle the business at the old terms.

From A. W. G. Allen to grant to Red Deer Exhibition Assoc-

iation. From chief license inspector, Edmonton re liquor licenses. He contended that portions of by-law no. 99, were ultra vires but would write again on the question. From Samuel Taylor. Re stoppage in water service. Will be dealt with at once.

From D. C. MacDonald, Banff, applying for position of inspector of sewers. Filed.

From Hugh Ramsay applying for position as superintendent of waterworks and sewerage system or any other work of a public character, at \$100 per month. Referred to fire and light committee.

From Mr. Jamieson stating that the C. P. R. did not object to the town putting in a weigh scale on their property but objected strongly to having a cattle squeeze or branding corral. Filed.

From J. Carlyle Moore re nuisance ground, stating certain conditions were made by J. T. Moore on which the granting of the favour to the town rested. He has not received any reply so far and the letter requested one. Would be obliged for reply. Referred to commissioners.

G. W. Smith and A. W. G. Allen waited on the Council as a delegation from the Red Deer Exhibition association asking for a grant or at least that the town would guarantee the exhibition against loss to the extent of say \$5000.

The mayor said the matter would have to go to the finance committee and would have the committee's consideration before anything was done.

It was understood the association did not propose going around asking donations this year.

Councillor Pidgeon drew attention to the bad state of the side of the road in front of his place. His fence would soon be in the road. He hoped something could be done in the matter at once.

Councillor Butterill brought up the report of property and parks committee stating they had received tenders for blinds for fire hall from A. B. Purdy for \$25.80 and from Best Bros. for \$21.25. They recommended that the tender of Best Bros. be accepted. The report was adopted.

Councillor Pidgeon brought up the report of the License and Police committee recommending that the police station be leased for another year at \$25 a month.

That Chief Rothnie report regarding the beat of the night constable be adopted. They recommended Chief Rothnie be allowed a salary of \$75 per month to take effect from first of April. The report was adopted.

Councillor Tallman brought up the report of Markets and Health committee. They recommended the appointment of M. Graves as night scavenger, and that licenses be issued the rate to be \$3 for private and \$5 for hotel cists. That the secretary treasurer, the health officer, the persons within the municipality must have their private vaults and yards well cleaned up by the first of May and that the cistern bell be rung at seven and twelve o'clock a.m. and one and six p.m. also that a shed be erected at the market square and that a notice be given that a market be opened on the first Thursday in May.

Councillor McKee, brought up the report of the committee on Public Works.

The committee recommended that the sidewalks from the corner of Gaetz avenue on, Pough street, as petitioned for last year be built at once to the eastern limits of the municipality, and that the secretary is instructed to inform the foreman to begin the work at once. The committee also complete to begin laying a walk from corner of Nanton and Mann St. on the south side to the eastern corner of Mann and Parkville ave. The report was adopted.

Councillor Gaetz brought up the report of the sewerage committee, recommending that the tender of Henry Reinholt for the sewerage work, amounting to \$20,200, be accepted and that the town solicitor, in conjunction with the engineer, prepare to contract with Mr. Reinholt. The committee also recommended that the tender of Mr. Reinholt for the balance of unfinished sewer construction amounting to \$3126 be accepted and an agreement drawn up accordingly. The report was directed to call for tenders for

sewer pipes. The report was adopted. Councillor Butterill brought up a by-law to amend by-law no. 47 and amendments, to be called by-law no. 127 to define fire limits. The by-law passed its several readings after which the council adjourned to Monday evening 16th inst.

GAETZ AVE.

Our Drills and Plows have arrived, and are
now ready for the farmers. It will only be a
short time now till you will need these im-
plements. The snow is going fast, and the roads
are breaking up, so it will pay you to get your
goods out before the roads are impassable.

A few reasons why you should use Massey-
Harris Drills—They are built for the West by
men who know the requirements of the country.
2. Their ability to handle any kind of grain in
any desired quantity. 3. Convenience of hand-
ling, simplicity and durability. 4. These drills
sow positively, Uniformly, Continuously and
Satisfactorily. 5. They do not stop, bunch,
choke or clog. 6. They sow coarse or fine grain
equally as well and do not bruise or crush the
grain. All these drills have steel wheels, 3in.
face, and have positive force feed.

Plows—All kinds of plows on hand, walk-
ing, riding, sulky, gang and disc plows. Our
Sovereign sulky has no equal as a breaker or
stubble plow.

M.H. Cream Separator—Our new line;
let us show you a few of the points that make
this machine superior to all others.
Positive guarantee with all our machines.
Satisfaction or your money returned.

WILSON & McCUTCHEON.

Auditor's Report of the Town of Red Deer for the Year 1906.

—Red Deer, Alta.,
March 14th, 1907.
To the Mayor and Town Council,
Town of Red Deer.

Gentlemen—Herewith I beg to fur-
nish the following Financial Re-
turns for the Town for the year
ending Dec. 31st, 1906, namely:

1. Statement of receipts and pay-
ments (general account).
2. Statement of receipts and pay-
ments (waterworks construction ac-
count).
3. Statement of receipts and pay-
ments (sewerage account).
4. Statement of receipts and pay-
ments (waterworks maintenance).
5. Balance sheet of receipts and
payments.

I have found vouchers and author-
ity for disbursements with the ex-
ceptions of the following items:
March 14th, J. R. Cowell \$100.00
March 24th, Mrs. Buegar (ref. of license) 16.00
April 8th, H. H. Gatz 10.20
June 25th, Red Deer News 30.00
Oct. 11th, D. Pennington 19.75
Oct. 11th, News Publishing Co. 113.60

The following arrears of taxes for
1905 were not brought forward in
the new roll:
J. P. Inland \$5.40
Butcher and Publow 26.10
Dr. Hagey 1.80
R. L. Phillips 1.80
W. Stourel 2.70

And in the school district roll:
Bell Telephone Co. 1.90
Western General Electric Co. 15
The following amounts have been
received but not entered in the cash
book:
On the 10th of \$24.48 there
appears to have been a charge of
30 cents for exchange and the
amount is being held pending the
receipt of the said 30 cents. The
second item of \$10.00 is only part
payment of Mrs. Vulliamy's loan and
is also being held pending the re-
ceipt of the balance.

I have found slight discrepancies in
the following:
Cheque No. 1129 entered as \$10.20
should be \$10.20
Cheque No. 1490 entered as \$5.20
should be \$5.20
\$12.08 charged Public Works
should have been Parks Account.
\$10.00 charged to salaries should
have been sundries.
\$11.12 is 30 cents in excess of the
amount authorized.
There are three Bank Accounts
"General," "Water Works," and
"Sewerage." 12 cheques on Sewer-
age account were placed in error to
the debit of Ordinary Account. One
cheque chargeable to Water Works
Account was placed in error to the
General Account. These errors were
of course made in the Pass-books
and are explained in the Municipal
Books in the Reconciliations.

Assessment roll \$18700.84
Scho 1 taxes (outside town) 1018.70

Total taxes to date 19719.54
Total taxes paid 1906 16819.09
Arrears of 1906 taxes 2900.45
Arrears of 1905 taxes 298.02
Total arrears of taxes as per Balance Sheet 3188.47

The estimated income for the year is as follows—
Taxes levied as above \$19719.54
Arrears of 1905 taxes 2050.03
Making a total of 21769.57
To which must be added the sum of 1704.55
From a m'y source mak-
ing in all an income of 23534.12

As is shown by the Statement of
Receipts and Disbursements, the to-
tal is legitimately charge-
able to this income amount to
\$23702.01 which thus shows a de-
ficit of \$169.89 the year's work.
Caring to the Balance Sheet, I
beg to say that the liabilities
shown on the Debenture account in-
clude both principal and interest
to and including the 31st December
1906.

The overdraft at Bank is secured
by the deposit of Debentures to the
value of \$45000.00 as follows:
No. 8 Water Works exten-
sion \$20000.00
No. 9 street improvements 4000.00
No. 10 new fire hall 5000.00
No. 11 Hospital grant 8000.00
No. 12 sewerage 80000.00
I enclose a list of accounts pay-
able amounting to \$9071.15.
On the assets side of the balance
sheet of real estate amounting to
\$23074.00 is a conservative figure
at present values. Water works per
13084.66 are put in at cost; the
other items need no comment.

With regard to the Sewerage Sys-
tem and Public Works—although
some accounting experts place them
in as passive assets, after mature
consideration and discussion with
authorities on subjects Municipal, I
have come to the conclusion, in my
own mind, that up to the present
time there are none of our public
works nor any part of our Sewer-
age System that can be considered
as assets.
I may mention that the lots on
Main street which are to be doled
to the town by the Toronto Trus-
tees, as a compensation for the im-
provement made in the latter's
property by the straightening of
Weslaco Creek, have not been put
in as an asset, owing to the fact
that no actual transfer has been
made.

Nervous Prostration

IT IS WORRY THAT KILLS, NOT WORK.

Work without worry usually tends to
prolong life. On the other hand, worry,
with or without work, is fatal, because
it uses up what the Doctors call the
"Leucithin," a phosphorized fat which
is the chief constituent of the brain and
nervous system—a waste which, if
stayed in time, means complete
nervous wreck. The evident moral is
"don't worry—advise easy to give,
and in these days of stress and strain,
practically impossible to take." The
alternative is: find some way of re-
placing the wasted Leucithin—the
phosphorized fat. This absolutely
essential element will be found in
its most perfect, palatable and assimi-
lable form in

FERROL

an emulsion of Cod Liver Oil and
Phosphorus (phosphorized fat) together
with iron, the recognized blood builder,
making FERROL the ideal nutrient
claims to be.
For the prevention or treatment of
nervous prostration FERROL is about
unparalleled—it is safe, sure and
speedy.
The formula of FERROL is freely ex-
posed, consequently

GAETZ AVE., RED DEER

The Two Vanrevels

By BOOTH TARKINGTON.
Author of "The Gentleman from Indiana" and "Monsieur Beaucaire"

Copyright, 1902, by A. A. McClure Co.

(Continued from Last Week.)

Beaten, stifled, hanged over his head, he returned her long, dumfounded gaze helplessly and told the truth like an inspired fencer.

"I came—I came—to bring another man away," he whispered brokenly;

"But tell me—"

"What must you?"

There was a shuffling of chairs on the floor overhead, and Crayley went.

He went even more hastily than might have been expected from the adamant attitude he had just previously assumed. Realizing this as he reached the wet path, he risked stealing round to her window.

"For your sake!" he breathed, and, having thus forestalled any trifling imperfection which might arise in her recollection of his exit from the house, he disappeared, kissing his hand to the rain as he ran down the street.

Miss Betty locked her door and pulled close the curtains of her window. A numerous but careful sound of footsteps came from the hall, went by her door and out across the veranda. Finally she waited until she heard her father go alone to his room.

She took the candle and went in to Mrs. Tanberry. She set the light upon a table, pulled a chair close to the bedside and placed her feet hand lightly on the great lady's forehead.

"What's very late, child? Why are you not asleep?"

"Mrs. Tanberry, I want to know why there was a light in the cupola room tonight?"

"What?" Mrs. Tanberry looked herself as uplight as possible and sat with blinking eyes.

"I want to know what I am sure you know and what I am sure everybody knows except me. What were they doing there tonight, and what was the quarrel between them?"

"Mrs. Tanberry, I want to know why there was a light in the cupola room tonight?"

Either Low Pay or No Pay is the
Rule For Lawmakers.

The Norwegian members of parliament

must take a day off on condition that they

do not absent themselves from work.

To go further east, it is found that

Rumania thinks her lawmakers worth

the cost of the day's wages, and the

lawmakers of the country are paid

only \$1.50 a day, but on the other hand

they have the old privilege of a free

seat in the Royal theater at Copenhagen.

While the members of the German

parliament are not paid, the lawmakers

of the various German states do

not work for nothing. Saxony's

members of parliament are paid about

\$1.50 a day, but on the other hand

Veronese's Big Painting.

Veronese's great painting, "The

Marriage of Cana," is 50 feet long

and 10 feet high and contains 148

figures. The most remarkable feature of

the painting is the group of musicians in

front of the tables. Among these

Veronese represents Titian, Tin-

toletto, himself and other celebrated

painters.

A Big Family.

Dennis Koorbeke, who died in Ire-

land in the early part of 1892, had 48

children, 220 grandchildren and 644

great-grandchildren.

The Camel's Foot.

The camel's foot is a soft cushion pe-

riously well adapted to the stones and

travel over which it is constantly walk-

ing. During a single journey through

Sahara horses have worn out three

sets of shoes, while the camel's feet are

not even sore.

The Roman Catacombs.

The Roman catacombs are 500 miles

in extent, and it is estimated that from

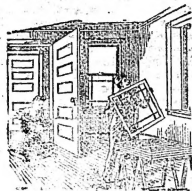

2,000,000 to 10,000,000 dead are there

interred.

Council Meeting.

The adjourned meeting of the Council was held on Monday evening last. All members present with his worship the Mayor in the chair.

TOWN COMMISSIONERS' REPORT

The commissioners reported briefly. Pending the appointment of Provincial Board of Health the commissioners did not deem it wise to proceed with the construction of the septic tanks. The other work, register, etc., will be arranged sufficiently early to avoid any delay on that account. They expect analyzed samples of water from our intake and analyze the same in a few days.

Some difficulty has been experienced as was expected, along the line of water pipes laid last fall, but the matter has been carefully followed up and the streets kept in as safe condition as possible.

The Fire Brigade boys are making big preparations to take in the firemen's sports at Calgary on the 23rd and 24th, of May. They hope to carry off the trophy this year.

Harry Wallace, President of the Red Deer Gun Club, has called a meeting of baseball enthusiasts to meet in the Alexandra Hall Friday evening April 19th at 8 o'clock, for election of officers for ensuing year.

Fred Hart the boat man, has just about completed a nice sailing scow for Messrs. Alford and Lane of Pine Lake. It is wide and comfortable and just the craft for a nice sail on a small body of water. Mr. Hart is also making a gasoline launch for Bruno Krause to be used on Snake Lake the coming summer.

J. R. Cowell has purchased seven acres on the south side of Mann street on the top of the hill to the south east of town. The sidewalk will be constructed to the bottom of the hill, the roadway is being widened some ten feet and lowered two feet. The former intention of a lake is abandoned and the creek will be returned to its original channel. Mr. Cowell has begun to brush his new property with a view to subdividing into building lots. There will be a commodious carriage drive way through the property.

Springbett & Bowhey the well known blacksmiths, and machine men, have purchased the business good will and premises of John Wilson blacksmith, Mann St. and will take possession in a few days. They intend building a solid brick warehouse 25 by 50 feet on the lot next to the shop and will fill it with implements etc. for which they are agents. The firm had leased the Feed shop Gaetz avenue north, but owing to the contractors not being able to fill agreement with reference to a building they were obliged to leave as they must have a warehouse in connection with their shop.

They have opened negotiations with the owners in regard to the 40 acres of land, legal subdivision 3 & 4 sec. 15, which it has been suggested, should be purchased for a park.

The Commissioners believed the purchase of this land would be a popular move and would prove a grand asset to the town and a boon in years to come.

for the completion of sewers has been drawn up and will be submitted to the Council this evening with a by-law to authorize the signing of them by the mayor and sec-treas on behalf of the town.

The report of the Commissioners was adopted.

The contract with H. Reinhold for completion of sewers was read, considered and adopted.

W. A. Moore addressed the council with regard to his request last fall for connection with the water main at that time. He said he had no objection to coming into the municipality, in fact he had not given the matter consideration but felt he would, naturally come in in time. The terms on which they would come, into the town would have to be considered.

He objected to the outlet of the sewers where it was. He did not think it could be the natural outlet. He contended there were sand beds which could be used for filtering purposes satisfactorily. If he had to take his drinking water from below the sewer outlet he contended it would not be pure.

Councillor Gaetz asked if he was given water connection would he be willing to leave the septic tank where it was.

Mr. Moore said he would not at the present time.

J. Carlyle Moore also addressed the Council, he said he represented a large tract of land on east side of the river for his mother. He strongly objected to the sewer outlet being above this property. He suggested running the sewer eastward to obviate all objections to present conditions. He suggested running the sewer on Douglas street then to the river then eastward along the river bank for some distance. It had been suggested to take in the whole of sec. 21, this was too much. He suggested taking in only a part of sec. 21, say 200 yards east of Myrtle avenue, although not yet subdivided. A fixed assessment might be agreed upon until subdivided when a proper adjustment could be made on that basis. He would be willing to pay an assessment by stating that they were endeavoring to arrive at an amicable settlement entirely without prejudice. But that if they felt they were treated unjustly they were prepared to resist to the best of their ability.

Moved by Coun. Stephenson-Butterill that the finance Committee be instructed to meet Messrs. W. A. and J. Carlyle Moore, and go into the question of extending the town limits and the sewerage system eastward with them and report to the council. Carried.

A communication was read from J. R. Cowell sec. of the Board of Trade asking for use of the Council chamber for Board meetings, and also asking for seating accommodation.

Councillor Botterill opposed this request because this hall was built for the fire brigade, as this was their living room. If we were not careful we would have no accommodation for the fire boys. He did not object to a farmers' meeting in the afternoon but that was the limit.

Councillors McKee and Stephenson opposed using the room for meetings other than for council meetings.

After some further discussion the following motion passed.

Councillor McKee-Gaetz that the Mayor and councillor Botterill be a committee to meet the president of the Board of Trade and explain the position of the council re their request to use the recreation room of the fire hall.

Councillor Botterill-Pidgeon that the council express its hearty thanks to the mayor for his present to the council of the mayors chair. Carried unanimously.

Councillor Gaetz brought up and carried through a by law regulating sewer construction.

Moved by Councillor Gaetz-McKee that the secretary be instructed to inform the chief of police to enforce the pound law and have the stock that is running at large run in the pound at once. Carried.

Councillor Botterill-Gaetz that the proposed contract with the C. P. R. re water supply be referred to the town solicitor for a full report at next regular meeting. Carried.

A by law to amend the hawkers and peddlers by law was introduced and carried through.

Councillor Stephenson-Pidgeon that all building permits granted for buildings to be erected within the fire limits as ordered by the last by-law be cancelled unless contracts have been let and work commenced and that the parties of the permits be notified to that effect. Carried.

Councillor Botterill asked the mayor if he was aware that permits were taken out some time ago that were now offered as an inducement by real estate men to sell property? He did not think this was right.

Under the new by law persons must commence building within thirty days.

Persons taking out a permit could not transfer right to another person as the permit was not transferable.—Council adjourned.
